CHECK

The diagram illustrates the final steps of toilet seat installation. Step 1 shows the seat plate being aligned with the toilet bowl. Step 2 shows the screws being tightened. Step 3 shows the seat plate being trimmed to fit. A 'CHECK' icon with an eye symbol and a downward arrow points to a warning box containing a crossed-out wrench and screwdriver icon and a toilet bowl icon, indicating that the seat should be checked for proper fit and function before use.

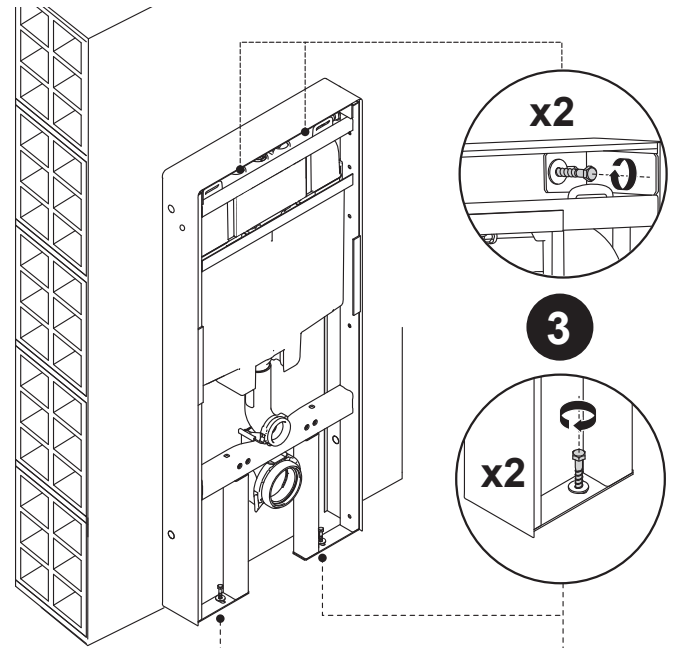

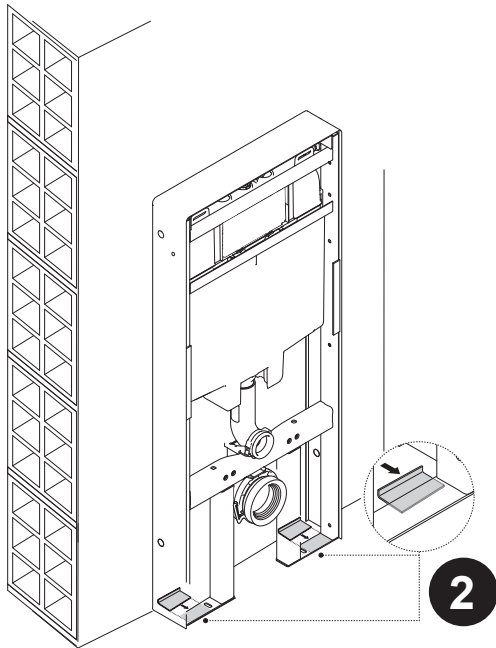

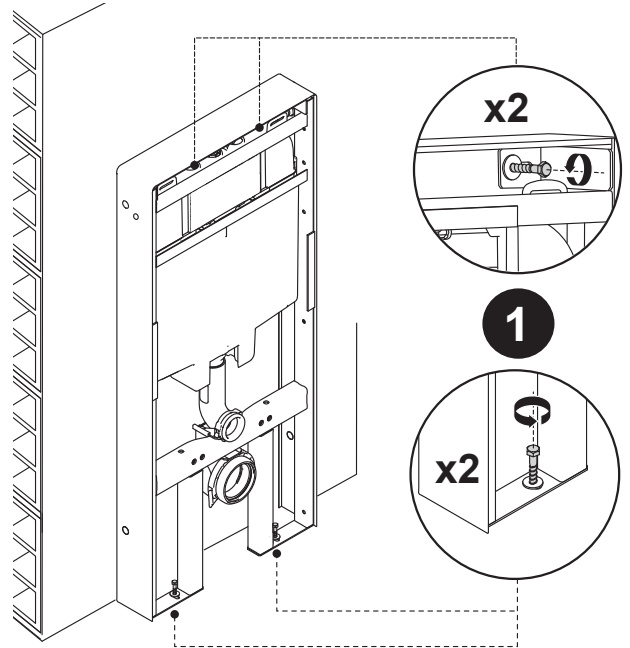

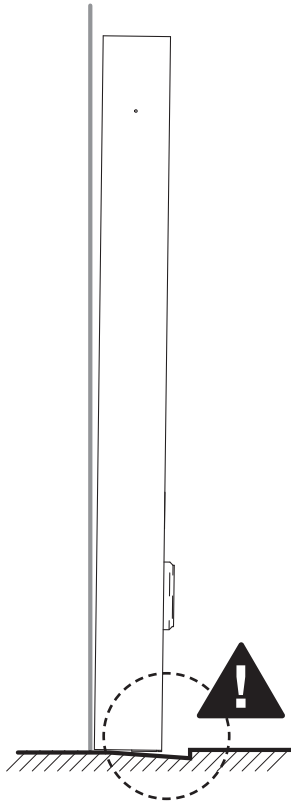

12

Diagram 12 illustrates the step of attaching the front panel to the backplate. The main diagram shows the front panel being aligned with the backplate. Two arrows labeled '2' indicate the direction of movement. Two 'CLICK' labels with ear icons indicate the points where the panel's clips engage with the backplate's slots. A circular inset provides a magnified view of the attachment mechanism, showing the clips (labeled '1') being pushed into the slots, with arrows indicating the direction of force.
